PROFESSIONAL SUMMARY

Software Development Engineer specializing in **backend systems, automation, and AI-native developer tooling**. Strong problem-solving background with **LeetCode Guardian 2145, CodeChef 4-Star 1919**, and **800+ DSA problems solved**. Experienced in building production-oriented systems using **Go, TypeScript, Node.js, REST APIs, Docker, GitHub Actions, AWS EC2, PostgreSQL, MongoDB, Redis, and Workato**, with a focus on API integrations, reliability, auditability, structured logging, and scalable backend design.

EDUCATION

Thapar Institute of Engineering and Technology
B.E. in Computer Science and Engineering | CGPA: 8.2/10

Patiala, Punjab
2022 – 2026

EXPERIENCE

Engineering Intern – Relcu CRM Automation

Mar 2026 – Present

Adaptware Solutions Pvt Ltd.

- Built and maintained **50+ CRM automations** using **Workato**, integrating **Twilio, email systems, webhooks, and CRM APIs** to streamline mortgage CRM operations.
- Developed **event-driven flows** for lead communication, notifications, and data synchronization, reducing manual effort and improving process reliability.
- Debugged execution failures, optimized payload handling, and improved error tracking to ensure more reliable workflow execution and faster issue resolution.

PROJECTS

AE Brand User Invitation System | Go, REST APIs, Docker, OpenAPI, GitHub Actions

GitHub | 2026

- Built a production-ready **Go backend service** for brand user invitation and self-service onboarding based on a PRD, supporting user creation, persona updates, removals, listing, and audit queries.
- Implemented **super-admin authorization**, request validation, duplicate-user handling, multi-persona support, account-level access control, and clean service-layer orchestration.
- Designed pluggable **Admin API adapters** with local file-backed persistence, audit logging, OpenAPI docs, Docker setup, GitHub Actions CI, structured logging, graceful shutdown, and unit tests.

DevSquad MCP | MCP Server, TypeScript, Node.js, npm, Workflow Orchestration

GitHub | 2026

- Published an **NPM-based MCP server** that converts vague coding prompts into structured, role-based workflows for AI coding agents such as **Claude Code, Codex, Cursor, and Antigravity**.
- Created a **prompt classification engine** to route requests into clear, partial, or vague workflows, enabling implementation, discovery-first, or investigation-only execution paths.
- Added **rule-based review gates** and safety checkpoints to reduce hallucinated changes across authentication, payments, databases, deployments, and secrets.
- Authored deterministic **error diagnosis playbooks** for TypeScript, Node.js, Next.js, and OAuth errors with safe inspection steps and risk summaries.

TECHNICAL SKILLS

Languages: C++, Go, TypeScript, JavaScript, SQL

Backend & Systems: Go HTTP Services, Node.js, RESTful APIs, API Integrations, Webhooks, Workato, Redis

Cloud & DevOps: Docker, GitHub Actions, AWS EC2, AWS S3, Nginx, Git, GitHub, CI/CD, Unit Testing

Frontend: Next.js, Tailwind CSS

Problem Solving: LeetCode **2145**, CodeChef 4-Star **1919**, 800+ DSA Problems

Core CS: Data Structures and Algorithms, Operating Systems, DBMS, Computer Networks, Object-Oriented Programming

ACHIEVEMENTS

INR 3 Lakh Merit Scholarship awarded by Thapar University for academic excellence.

Secured **Global Rank 25** in CodeChef Starters 216.

Secured **Global Rank 181** in LeetCode Biweekly Contest 173.
